

## **“Summit to Sea” Ocean Rowing Expedition – Sponsorship Proposal**

### **One man. One boat. One ocean.**

This expedition is a solo, unsupported ocean row that will test human endurance and resilience at the highest level.

The journey will be shared live on social media with a global audience through daily updates, video, GPS tracking, and media coverage—bringing sponsors directly into the story.

This is not just an ocean crossing. It’s a platform for storytelling, brand alignment, and public engagement.

The record for a non-stop, unsupported solo row from continental Europe to Continental South America is 97 days. **I will beat that record in 2027.**

I can only succeed with a team of supporters – join me as I row across the Atlantic.

### **Audience & Reach**

Social Media will be updated daily during the row to keep everyone fully informed of progress and life on the ocean.

Live GPS tracking will allow you to follow my position 24/7.

Media outreach via local and national press.

### **Sponsorship Structure**
